
Experience

SUNFLOWER LYRIC VIDEO

- Developed a process, concept art and style frames to visualize my ideas before animating
- Used kinetic typography to animate the lyrics in an expressive form to match the beat and vibe of the song
- Animated specific words to act out their meaning (“tilt” being tilted and such)
- Incorporated imagery, motion, framing, and colors to appropriately match the energy of the *Spider-Man: Into the Spider-Verse* movie

SOCIAL MEDIA MANAGER FOR STUDENT CLUB

- Developed and managed a new social media presence for the Board Game Society club at my college
- Created eye catching graphics, collages, and videos to promote the club and notify students of special events
- Designed the club logo
- Bi-weekly post and club meeting schedule remain consistent to keep viewers interested and notify students of meeting dates

PROMOTIONAL VIDEO FOR STUDENT CLUB

- Developed a process, concept art and style frames to visualize my ideas before animating
- Animated words and sentences with kinetic typography to express the energy and overall vibe of the Columbia Board Game Society
- Utilized images, text and motion to inform viewers of the time, location, and activities found at the club

3D MODEL OF VINTAGE GAS STATION FOR STUDENT FILM

- Designed concept art and layouts for the detailed models using many sources for inspiration
- Coordinated with directors and concept artists to design the gas station and pumps to fit the film’s art style and standards
- Modeled a detailed vintage gas station roof, vintage gas pumps, modern gas pump, and an interstate sign in Maya
- Intense texturing completed in Substance Painter to give the station a vintage, rusty look for the film
- Followed the appropriate deadlines set by the animation coordinator and directors

3D MODEL OF ABANDONED WAREHOUSE

- Followed provided reference art to conceptualize the structure into a digital 3D space with a 1:1 scale
- Made individual models for every specific part of the warehouse
- Created detailed custom textures for almost every single object
- Decorated the scene with plenty of objects to give that ‘abandoned’ look
- Used light and texture elements to render the scene with a realistic environment
- Incorporated camera animation to demonstrate the scene in video form

SKILLS

After Effects, Photoshop, Illustrator, InDesign, Premiere Pro, Substance Painter, Maya, Motion Graphics, Graphic Design, Poster Design, Image Manipulation, Social Media Management, Visual Effects, 3D Environmental Modeling, Texturing, and Lighting, illustration, video editing, customer service, bright attitude, efficient work speed, determination to learn & improve
